Potassium Sulphur & Trace Elements

**A liquid Potassium, Sulphur & Trace Elements
fertiliser as humate, fulvates and chelates.**

General Information:

Potassium as humates and fulvates, and trace elements chelated by naturally occurring lignin compounds, increase plant uptake and reduce soil fixation.

Recommendations:

For foliar, soil or fertigation applications in horticulture, broadacre crops and pasture as required.

Compatibility:

Can be mixed with crop protection products subject to a jar test.

Storage and Handling:

Store under cover and out of direct sunlight. Contents may settle so mix before using. Best used within 12 months of purchase. Non toxic and non inflammable. Avoid contact with skin and eyes, avoid breathing spray mist.

ANALYSIS

Potassium (K)	15.0% w/v	Molybdenum (Mo)	0.010% w/v
Sulphur (S)	1.5% w/v	Boron (B)	0.052% w/v
Magnesium (Mg)	0.25% w/v	Iron (Fe)	0.030% w/v
Copper (Cu)	1.0% w/v	Potassium Humates	10.0% w/v
Zinc (Zn)	2.0 % w/v	Potassium Fulvates	5.0% w/v
Manganese (Mn)	0.075% w/v	Potassium Lignosulphonates	2.5% w/v
Cobalt (Co)	0.012% w/v		

Conditions of Sale: The Manufacturer and Distributor warrants that this chelated trace element product contains the active constituents and chelating compounds, such as specified, and it is for the accordance with directions under normal conditions of sale. No one, other than the officer of the Manufacturer and Distributor, is authorized to make any warranty, guarantee or direction concerning the product as the time, place rate of application and other conditions are beyond the control of the Manufacturer and Distributor.
